PROFESSIONAL SUMMARY

DevOps and Cloud Engineer with 4 years in multi-cloud environments, including 2+ years building CI/CD, Terraform-based infrastructure, and Kubernetes platforms on Azure, AWS, and GCP. Experienced in running fintech workloads and automating releases with GitHub Actions and Azure DevOps.

PROFESSIONAL EXPERIENCE

DevOps Engineer JUL 2025 - PRESENT
Enbros Technologies Ltd | London, UK (Remote)

- Built and maintain CI/CD pipelines in Azure DevOps and GitHub Actions for all services deployed to AKS and EKS, raising deployment frequency by 60% and cutting manual release effort by 70%.
- Provision Azure, AWS, and GCP environments with Terraform and Bicep, reducing environment setup from days to a few hours.
- Operate Kubernetes workloads with Helm and monitor them with Azure Monitor and CloudWatch, reducing incident response time by 40%.
- Own iOS and Android release pipelines (Expo/EAS, App Store Connect, Google Play) and OTA updates.

DevOps Engineer (Contract) MAY 2026 – SEPT 2026
Waya Multi Link Technology Ltd, Lagos, Nigeria (Remote)

- Managed Terraform-provisioned AWS infrastructure for payment and digital-banking services, sustaining 99% availability.
- Automated GitHub Actions deployments to Amazon ECR, cutting lead time for changes by over 50% while meeting PCI DSS and CBN controls.
- Set up Prometheus and Grafana monitoring and tuned RDS capacity for transaction peaks, reducing latency by 85%.

Cloud Support Engineer OCT 2022 – JUL 2025
Teknowledge | Lagos, Nigeria (Remote)

- Resolved 300+ Azure tickets a month across APIM, ARM/Bicep, Cloud Services, and Lighthouse, using logs and metrics for root-cause analysis and escalating to engineering where needed.
- Wrote APIM and ARM best-practice guidance that cut repeat support requests by 25%.

DevOps Engineer (Part-time Intern) JAN 2024 – OCT 2024
HNG Tech | Lagos, Nigeria (Remote)

- Built CI/CD pipelines with Jenkins, GitHub and Azure DevOps, and deployed containerised applications with Docker and Kubernetes.

- Managed and automated Linux infrastructure across multiple environments, including configuration tuning and routine server maintenance.
- Set up Azure Monitor, Prometheus and Grafana to track application and infrastructure health.
- Automated provisioning and deployment with Terraform, Bash scripting, and Python.

Commerce and Economics Teacher for Secondary Schools AUG 2021 – JUL 2022
Gold and Silver Int'l College | Gboko, Benue State, Nigeria.

- Fostered academic success, which resulted in a 20% increase in student performance in taught classes.
- Inspired students to achieve excellence, leading to a reduction in academic-related issues.
